**advance to the next generation of percutaneous ...** - step 5 ciaglia blue rhino g2  
The advance to the next generation of percutaneous catheters is a result of the continuous research and development efforts of the Ciaglia Blue Rhino team. The new catheter is designed to provide a more comfortable and effective procedure for patients. The catheter is made of a soft, flexible material that allows for easy insertion and manipulation. The catheter is also designed to be easy to use, even for less experienced operators. The catheter is available in a variety of sizes and configurations to meet the needs of different patients and procedures. The catheter is also designed to be easy to clean and sterilize. The catheter is a significant improvement over previous catheters and is expected to become the standard of care for percutaneous catheterization.
